

DOCUMENTACIÓ CalcMe de WIRIS

El **CalcMe** de Wiris és un producte que està integrat a ATENEA quan es fan **qüestionaris** i que permet incrustar gràfiques, des d'operacions bàsiques fins a derivades, integrals, generar dades aleatòries, alguns càlculs amb mètodes numèrics, etc.

The image shows a screenshot of the CalcMe documentation page on the left and the software interface on the right. The documentation page has the title "CalcMe documentation" and a paragraph describing it as a Computer Algebra System (CAS) for algebraic manipulation. The software interface shows a menu with categories like Symbols, Arithmetic, Polynomials, Statistics, Functions, Calculus, Linear algebra, Combinatorics, Logic and sets, Solve, Greek, Units of measure, and Graphics. The main window is titled "Untitled calc" and "Sheet 1".

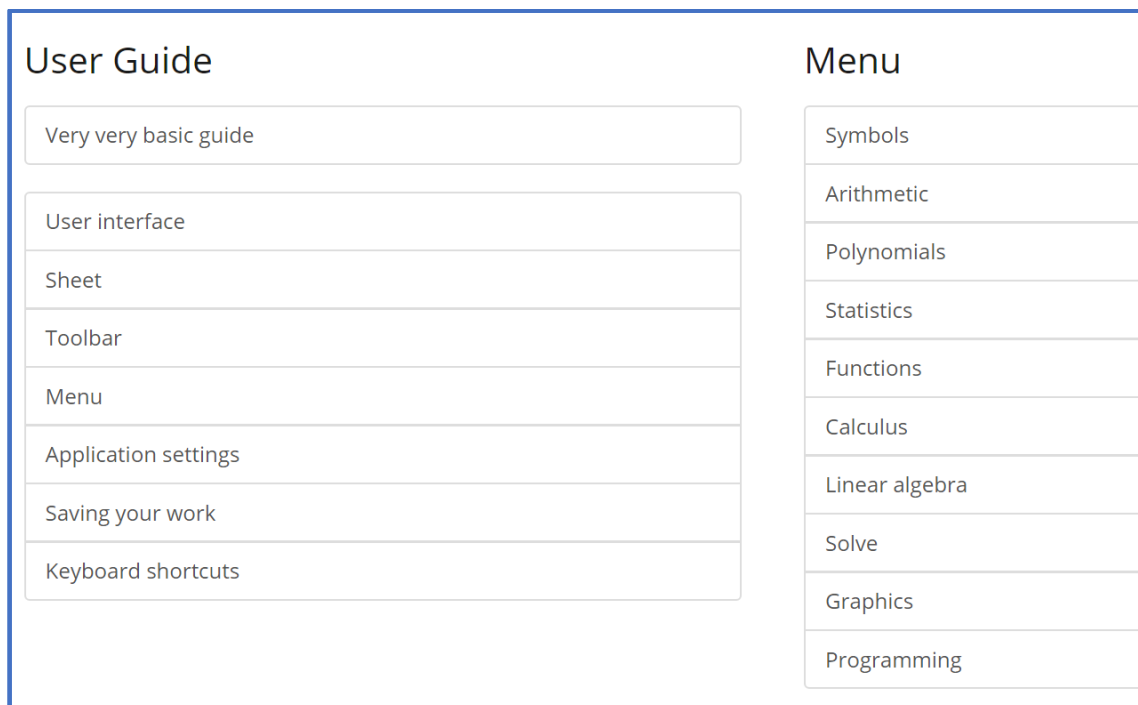

❖ Com funciona el CALC ME de Wiris integrat a ATENEA?

Guia molt bàsica:

<https://docs.wiris.com/en/calc/start>

Tota la documentació exhaustiva a:

https://docs.wiris.com/en/calc/start#calcme_documentation

The image shows a screenshot of the CalcMe documentation menu and user guide. The menu is divided into two columns: "User Guide" and "Menu". The "User Guide" column contains links to "Very very basic guide", "User interface", "Sheet", "Toolbar", "Menu", "Application settings", "Saving your work", and "Keyboard shortcuts". The "Menu" column contains links to "Symbols", "Arithmetic", "Polynomials", "Statistics", "Functions", "Calculus", "Linear algebra", "Solve", "Graphics", and "Programming".

❖ Com importar-exportar?

Per importar i exportar algorismes de preguntes podeu trobar informació aquí:

https://docs.wiris.com/en/quizzes/studio#import_and_export.
